

FIRE DESTROYS 50 ACRES OF WHEAT

Friday afternoon Chris Bartosh's about 50 acres of as fine wheat as could be found anywhere by fire, which evidently started from the nuisance ground where a fire has been burning for weeks past. Examination of the ground showed where fire had crept over the hill top to the long stubble and a breeze blowing from the west quickly carried it to the big stacks and in a few minutes it was burning flat in an ever widening circle making towards the town and it was feared it might sweep down to the hospital. But suddenly the wind shifted and coming from the north burned a half mile to the road which it did not cross. Although there was no one on the ground so near when the fire started a crowd soon rushed out with a number of hayrakes and were soon busy loading these up, while teams and engines started for the scene with plows and ditches.

For some reason the fire whistle was not sounded for some time after many had started for the scene of conflagration.

Monday evening the fire whistle sounded and again the fire was in the same big field of grain belonging to Mr. Bartosh, but was only one of the two big straw stacks involved that day, and after a brief fight the fire was kept from spreading to the

Special School Fair Prizes

Gleichen Friday, September 21st

Friday next, Sept. 21, the Fourth Annual Gleichen School Fair will open at the Gleichen School of Agriculture and promises to be one of the best held in this town. The committee in charge has planned a lot of time and hard work to make it a real success and the school teachers have done their part well while the children are all anxiously awaiting the arrival of the annual day. Thus it is up to the parents and friends to attend and show by their presence that they want to encourage the boys and girls and appreciate the efforts of the committee and teachers to aid in children.

Besides the fine exhibits in excellent program of sports is provided for the afternoon, which will be keenly contested by the boys and girls. Some correction and additions have been made to list of special prizes which are given below:

Gleichen Locals

Fine threshing weather.

The Call from now to Jan. 1, 1925,
only \$2.00

Sept. 21—Gleichen School Fair at
School of Agriculture.

Rain Saturday afternoon put a stop to
all harvest operations.

The Haydn Quartette will be at the
United Church on Friday, Oct. 12.

Mrs. Thos. Henderson has returned
from visiting friends in Edmonton.

Read what Henderson & Mallory
say about insuring your grain in stock

Mrs. Biddell has been suffering most
severely with erysipelas for sometime.

Grain hauling is now the order of
the day and all our elevator men are
busy.

R. Martin arrived Monday from
Calgary and is now engaged at the
U.G. elevator.

W. R. Walsh of Standard has some-
thing to say about coal in this issue
that you should read.

Leslie Henderson has arrived from
Medicine Hat to accept a position with
the Revelstoke Sawmill Co.

Mrs. W. P. Evans left on Tuesday
afternoon for Toronto to visit her
sister who is dangerously ill.

The little son of Mr. and Mrs. G.
H. Walker has been seriously ill with
pneumonia, but is now recovering.

The Gleichen Women's Institute
have dates in rent for dances,
banquets, etc. Everything required
may be obtained.

Hugh Bates has the agency for the
McGowan-Banks auto and is already
selling them. Read what he has to
say about this new car.

Jack Riley returned Sunday from
spending a couple of weeks in the
Calgary hospital considerably better,
but still looking rather weak.

In job printing The Call meets the
prices of any part of the world's
quality of paper, etc. included. Let
us compare prices with any of the
other job printers.

On going to trouble with our gasoline
"Jennie Mole" the Call is several
hours late this week and we have been
obliged to handle a number of matters
over until next issue.

G. J. Routledge, Gleichen's ever-
obliging C.P.R. agent, has been visit-
ing with rheumatism for the past
week and confined to bed part of the
time, but is now on the mend.

Halp Reeves is now C. P. R. agent
at Hussar. For a number of years
he has been night operator here and
removal is keenly regretted as he was
ever most courteous and obliging, but
all wish him well in his promotion.

James Naylor celebrated his 80th
birthday last Thursday, September 30.
He is still able to take a lively inter-
est in life and few can stay with him
in a debate.

After two months vacation the
Gleichen Women's Institute will meet
at 8 p.m. sharp on Tuesday, Sept.
25th, at the home of Mr. A. Head.
A full attendance of members is re-
quested as there is important business
to transact.

Information of the whereabouts of
Mike Lazarus is wanted by his moth-
er. He attended the Edmonton ex-
position school at Edmonton a number
of years and was last heard of as at
Namski. Any information will be
appreciated by John W. Trojanenko,
Wayne, Alberta.

Some day the boys riding bicycles
about town will meet with a serious
accident by their recklessness. They
should be very careful at night as it
is often very hard for auto drivers to
see them at times. The electric light
at the Call office has not been working
right for about a month past and on
several occasions bicycle riders have
narrowly escaped with their lives.

Ponder O'er This

(Continued on another page)
where marketing is done at point of
production, and where each individual
producer sells his wheat, his cemo-
ny is simply thrown into competition
with commodity with disastrous
results to the producer.

"The cost of handling a bushel of
grain from Port Arthur or Wilm-
ham to London, via American chan-
nels, amounts to roughly 27 cents a
bushel; thus on one hundred million
bushels of grain twenty seven million
dollars of good Canadian money has
gone out of the country; if only the
Canada to Britain grain trade were
delivered to American channels but
a return Britain by Canada in-
dustrial trade has been proved to be
to American channels. That is,
Canadian grain has moved out to
British ports via the United States
and British goods have moved into
Canada via the United States.

LOJHSH QNY NAOI

The Call from now to Jan. 1, 1925,
only \$2.00

Complaint has been made to the
local police by the Chinese that the
number of small boys hang about their
restaurants especially in the evenings
when they should be at home, and
the officer would like to give a kindly
warning to parents and guardians
that unless they keep their children in
the way he was obliged to take action under
the "Act Respecting Neglected Chil-
dren," which he naturally does not like
to have to do.

The subject intimated at the theme
of the Rev. Mr. Fatt's sermon for next
Sunday evening, was "The power of
evil interest to the community."

The "Small Town" does not bulk
largely in the estimation of some peo-
ple, and undoubtedly a large number
will be attracted to hear what the
minister of the Union Church has to
say about "The power of evil inter-
est to the community."

PICTURE ENTERTAINMENT

An elaborate treat above the ordi-
nary run, was supplied the boys and
girls of Gleichen, in the United
Church last Saturday evening.

Beginning with a beautiful travel-
ogue along one of the rivers of New
Brunswick, the program included a
film depicting the art of making cut
glass, "The Ice Caves of British Col-
umbia," and Earl Hurd's inimitable
"Bobby Bumps."

These gatherings are highly appre-
ciated by the younger portion of the
community, and are of great educa-
tional value.

ful selling. Advertising in the home
town is good business.

THE RESULTS OF PROHIBITION

The attempt to enforce
prohibition in the Province
of Alberta has produced conditions
that enable the boot-legger to flourish
in every city, town and village. No
place is so small but the boot-
legger's fraternity finds their
refuge in the boot-legger's
business.

Bootleggers have become
highly organized in erasing
those charged with the respon-
sibility of the enforcement
of the liquor act.

...Bootleggers are, be-
cause of sufficient expert in
their calling to enable the
boot-legger to handle their
product. These conditions
are known to all men in this
Province and must be inter-
vened to prevent the boot-
legger from becoming a menace.

There is just one remedy:
take away the boot-legger's
customers by selling "P"
government control.

Ponder Over This F. H. JONES PASSED AWAY LAST FRIDAY

Can the eighty millions annually paid the States for coal be kept in Canada? R. J. Cronin told the Royal Commission that they can. A coal policy of Dominion-wide scope, industrially connected with the fiscal policy of Canada can be utilized as one factor. Alberta he claimed has extensive and bituminous deposits sufficient to supply the needs of the continent for a thousand years as good as the best grades of each now being imported into the country. The initiating and developing of a coal policy would develop Western Canada and build up a market for western farmers. Eastern Canada, the speaker believed, is equally interested in the problem of transportation appears insurmountable only because Canadians have not gone out in earnest to develop a coal policy for the nation. This means so much to the nation that Cronin urged the commission to give it early consideration. Of even greater significance to the whole country, he told the commission, is what is termed the question of free and unrestricted use of the Panama canal, has ten times more value to the eastern farmers than even to western farmers. In detail Mr. Cronin said:

All Rail Roads High
"It costs \$7.50 to ship a ton of coal from New York to Seattle via the Panama canal. It costs \$20 to ship the same ton of coal from Eastern Canada to Vancouver. A few weeks ago, the city of Vancouver was in the market for a 2,500 lb. casing. A New Jersey price and a Montreal price were nearly equal, but the freight rate from New Jersey to Vancouver via the Panama canal was 50 cents a hundred and the rate all rail from Montreal to Vancouver was \$150 a hundred or a total of \$152.50 against \$87.50. The result was that the casing was purchased in New Jersey and because Canadians are prevented from having free and restricted use of the Panama canal millions of good Canadian dollars are going out of the country and besides millions of dollars are being wasted upon economic and scientific rail transportation.

Urges Immediate Action
"Notwithstanding the terrible drain upon the exchequer of Western Canada and upon the businessmen of Eastern Canada the Ottawa government has so far refused to appoint a Canadian customs officer at New York, which appointment would enable Canadian shippers to pass through that port in bond. I would respectfully urge that your commission use its best and immediate endeavors towards permitting Canadians to take full economic advantage of the Panama canal."

Western Grain Route
"The Vancouver man's remarks on co-operative marketing and the western grain route provoked the chief enthusiasm and he had the idea well diagrammed and the commission questioned him closely, and he was keeping an animated score. Cronin said:

"With respect to co-operative marketing, farming is the only big business in the country today which is not organized. It is obvious to every one that the wide gap existing between industrial effort and farming effort must be synchronized before farming conditions can improve. For workmen receive anywhere from \$8 to \$12.00 per day, as against farmers receiving \$1.00 for wheat. It costs 30 cents as much effort to produce a bushel of wheat as it costs to produce a barrel of cement, yet because of the present unorganized condition of the wheat industry has been organized and uneconomic costs and unnecessary competition eliminate the price of cement today is \$2.50 while the price of wheat is \$1.00.

Adopt Economic Methods
"The only possible chance farmers have of keeping abreast with modern industrial business is to adopt economic methods similar to those now used by large industrial corporations. Thus, of course, has been successfully followed by American farmers in not only perishable products like oranges and other fruits, but in the big industries like cotton and tobacco. Methods must be found to eliminate the present uneconomic waste and uneconomic competition in farm products and the one method which indicates any hope of relief is the scientific growing and co-operative marketing at point of consumption, as opposed to the present method of individual marketing and dumping at point of consumption, the producer with his wholehearted commitment right through to his ultimate market, and has been to eliminate all uneconomic waste and un-economic competition, and has thus been able to place his product at a market where buyer is in competition with buyer. In the present instance, (Continued on another page)

The intense feeling of regret and loss sorrow was perhaps never more generally expressed than that over the death of Felix Henry Jones, which occurred at 9:15 last Friday evening Sept. 14th in the Gleichen Private Hospital. This young man was most highly esteemed by all who knew him throughout the town and district, being very popular with every one although of a quiet and retiring disposition.

He was born in the State of Missouri, November 10th, 1898, lacking only a little over two months of being 25 years of age.

He came to Gleichen with his parents in 1909, who took up farming in the Arrowood district south of Gleichen to whom he was of the greatest assistance in building up a home for the family and reared, continually here since, save for about two years when during the time he was joined up with the United States navy but did not get overcast an arm as was signed just as his ship was ready to sail.

Besides his parents, Mr. and Mrs. G. Jones, he leaves to mourn his loss one sister and six brothers, all residents here, save two brothers, Maeson Jones residing in Kansas and H. Jones living at Orléans, Alberta.

For a month past Felix had not enjoyed good health, being always strong and robust he paid little attention to his ailments, until the previous Saturday when he was brought to the hospital here suffering from acute Bright's disease and when told that he could not recover said he was ready to go and from then on till the end his only worry and talk was that his relatives should not worry over him.

The Rev. Mr. Lyle conducted the services in the United Church, assisted by Rev. Pate, the church being filled to overflowing and many standing outside, after which one of the longest processions ever seen in this town followed the casket to the last resting place in the Gleichen cemetery. The beautiful casket being completely enveloped with beautiful floral tributes, among which the following contributors were noted:

Mr. and Mrs. F. McInally; House Boys; M. E. Finn; Threshing Crew; Arrowood Local U. F. P.; Mr. and Mrs. Decker; Gleichen Bazaar; Mr. and Mrs. Culp; Mr. and Mrs. Lyle; Mr. and Mrs. Frank Thorne; Mr. and Mrs. Bert Thorne; Mr. and Mrs. Decker; Mr. and Mrs. Bottrill; Mr. and Mrs. W. W.
